Covered by most insurance carriers

The key to clear vision

Relative lack of pain

Almost immediate results (within 24 hours)

Is Laser Surgery for You?

PROS

- Virtually painless
- Fast procedure
- Immediate improvement
- Covered by most insurance plans

CONS

- Not everybody is a candidate
- Cost
- Some risk of corneal damage

Laser Eye Surgery Facts

LASIK is the most common refractive surgery

- LASIK corrects near-sightedness and astigmatism
- Uncorrected vision may be 20/40 or better after surgery

Other options include PRK and LASEK

The Cost of Laser Surgery

1. Typically as low as \$499 per eye
2. Custom options can add to costs
3. Financing is available for some candidates

Clear Vision in a Day

In most cases, vision clears immediately, or within 24 hours of surgery. The patient should be able to return to normal activities in a day and feel no discomfort or side effects from the surgery.
