  - ▶ Awarded Best Eye Care Facility in 2016
  - ▶ Surgeons recognized as one of the most experienced teams in the country

# A First Look at Laser Surgery

- ▶ Safe, fast, and reliable
- ▶ Covered by most insurance carriers
- ▶ The key to clear vision
- ▶ Relative lack of pain
- ▶ Almost immediate results (within 24 hours)

# Is Laser Surgery for You?

## Pros

- ▶ Virtually painless
- ▶ Fast procedure
- ▶ Immediate improvement
- ▶ Covered by most insurance plans

## Cons

- ▶ Not everybody is a candidate
- ▶ Cost
- ▶ Some risk of corneal damage

# Laser Eye Surgery Facts

- ▶ LASIK is the most common refractive surgery
  - ▶ LASIK corrects near-sightedness and astigmatism
  - ▶ Uncorrected vision may be 20/40 or better after surgery
- ▶ Other options include PRK and LASEK

# The Cost of Laser Surgery

- ▶ Typically as low as \$499 per eye
- ▶ Custom options can add to costs
- ▶ Financing is available for some candidates

# Thousands of Satisfied Customers

“I could see without my glasses the very next day after surgery. I couldn't be happier.”  
–Marion M.

“The money I will save over the years by not having to buy glasses will more than pay for the procedure.”  
–Frank R.

“The staff was kind and friendly, and explained the process well.”  
–George L.

“Excellent! I'm a very happy customer.”  
--Bob S.

# Taking the Next Step

1. Sign up for a personal consultation
2. Schedule a surgery date
3. Arrive at surgery center 45 minutes before appointment
4. Undergo surgery
5. Enjoy better vision

## Clear Vision in a Day

In most cases, vision clears immediately, or within 24 hours of surgery. The patient should be able to return to normal activities in a day and feel no discomfort or side effects from the surgery.
