Is Laser Surgery for You?

Laser Eye Surgery Facts

- ▶ LASIK is the most common refractive surgery
 - ▶ LASIK corrects near-sightedness and astigmatism
 - ▶ Uncorrected vision may be 20/40 or better after surgery
- ▶ Other options include PRK and LASEK

The Cost of Laser Surgery

Typically as low as \$499 per eye

Custom options can add to costs

Financing is available for some candidates

Thousands of Satisfied Customers

“I could see without my glasses the very next day after surgery. I couldn’t be happier.”
—*Marion M.*

The money I will save over the years by not having to buy glasses will more than pay for the procedure.”
—*Frank R.*

“The staff was kind and friendly, and explained the process well.”
—*George L.*

“Excellent! I’m a very happy customer.”
—*Bob S.*

Taking the Next Step

Sign up for a personal consultation

Schedule a surgery date

Arrive at surgery center 45 minutes before appointment

Undergo surgery

Enjoy better vision

Clear Vision in a Day

In most cases, vision clears immediately, or within 24 hours of surgery. The patient should be able to return to normal activities in a day and feel no discomfort or side effects from the surgery.
