

Campus Recreation Center

Aquatics Program Planning

CRC Introduces . . .

The Bédard Aquatics Center

Lap pool—50 meters by 25 yards, with 1 meter and 3 meter diving boards

Leisure pool—features a current channel, vortex, and water wall

Whirlpool—temperature ranges from 101° to 104°

Why We're Talking

The Aquatics Center is currently underused

Maintaining fitness is a lifelong goal for students, faculty, staff, and community members

Surveys* suggest the university community is interested in regular visits to the CRC

Talking about the Center will increase that interest
